Subject Index

BR – Book Review
JC – Journal Club
L – Letter

A
Acoela
  systematics, 3ff
albendazole
  efficacy in intestinal nematode infection, 71ff
Albumax, 190
allergenicity
  nematodes, 373ff
amoebae
  role of mucins, 478ff
amoebiasis
  burden of disease, 1ff, 320ff, 321(*erratum*)
  diagnostic tests, 320ff
amplified restriction fragment length polymorphism, 350ff
anaemia
  malaria-related, 469ff
  nematode infection, 153ff
Anopheles gambiae
  genome size, 145
Anopheles gambiae complex
  vector distribution, 74ff
anthelminth drugs, 186ff
  veterinary parasitology, 45
antifolates
  malaria, 438ff
antigenic diversity
  Plasmodium falciparum, 390ff
antigens
  evolutionarily conserved, 246ff
  variant surface, (L) 132
antimalarial drugs, 438ff
Apicomplexa
  drug targeting, isoprenoid biosynthesis, 140ff
archaeoparasitology
  lice infection, 269
artemisinin
  malaria prophylaxis, 226
  with quinine, 410
artemether
  Schistosoma japonicum prophylaxis, 122ff
Artenam, 10
ascaridoids
  cetaceans, 510
Ascaris
  haemoglobin, 90
  polyprotein allergen/antigens, 373ff
Ascaris lumbricoides
  geographical variation in fecundity, 540ff
atopy
  helminthic infection, 186ff

B
Babesia canis
  nitric oxide generation, (L) 264
babesiosis
  equine, 275
bancroftian filariasis
  pathogenesis of lymphatic disease, 544ff
Baylisascaris infection, 372
bednets, *see* mosquito nets
blood transfusion
  malarial anaemia, 473ff
bonamiosis, 276

C
Caenorhabditis elegans
  RNAi technique, 347ff
cAMP signalling
  in trypanosomatids, 35ff
cancer chemotherapy
  anti-sleeping sickness drugs, 7ff
carbohydrate recognition
  helminth C-type lectins, 333ff
cell adhesion, *see* cytoadherence
chemotherapy
  malaria, 146ff
chloroquine
  action and resistance, 438ff
  binding, *Plasmodium falciparum* lactate dehydrogenase, (L) 133
chytridiomycosis, (L) 404
clag gene family
  Plasmodium, 366ff, (L) 405
co-evolution, 533ff
  Red Queen hypothesis, 506ff, (L) 508
co-infection
  malaria/hepatitis B, 509
Coccidia
  role of mucins, 479
complement
  and *Echinococcus granulosus*, 168ff
computer modelling
  malaria, 511ff
congenital toxoplasmosis
  cotrimoxazole for prenatal treatment, 254ff
cotrimoxazole
  in prenatal treatment of congenital toxoplasmosis, 254ff
Cowdria ruminantium infection, 372
cryptosporidiosis, 289ff
Cryptosporidium
  systematics, 287ff
Cryptostrongylus pulmoni, 226
cyclic AMP
  trypanosomatids, 56ff
cysticercosis
  Taenia asiatica, (L) 174
  vaccination, 191ff
cytoadherence
  clag gene family, 366ff
  multiple host receptors, (JC) 370
  Plasmodium falciparum, 416ff
cytotoxic T lymphocytes
  in malaria, 50ff

D
DDT
  adverse effects, 121
